

GUIDELINES FOR PRESENTATION REQUESTS

The I-69 ORX Project Team is available to attend meetings held by other organizations to keep the public informed about the project's development. The I-69 ORX Speakers Bureau allows the Project Team to reach more project stakeholders, provide them with additional insights, and address any questions or concerns they have.

While the Project Team will make every effort to speak to groups that request a presentation, there may be times when a presentation must be postponed. The Project Team may apply the following factors to determine which meetings or presentation requests to accept:

- The size of the group
- Whether the team has already presented to the group
- Whether the project has a direct impact on the group's constituency
- Whether attending the meeting is within the project budget
- The number of public meetings held on the topic
- Whether Project Team members are available
- The amount of public outreach already conducted in the geographic location of the meeting

Groups requesting a presentation about I-69 ORX should provide sufficient advance notice of your meeting and contact:

Speakers Bureau Requests

These presentations, unlike public meetings, are not a forum for the public to submit official comments, and the Project Team will not publish comments as it would at a public meeting. Those wishing to make an official comment should email info@I69OhioRiverCrossing.com, mail a letter to one of the project offices or call the number listed above.
