

# Roundabouts Opening: What to Expect

**The roundabouts at KY 351/2nd Street are opening in a temporary configuration.**

Two roundabouts near North Middle School are expected to open before the start of the school year.

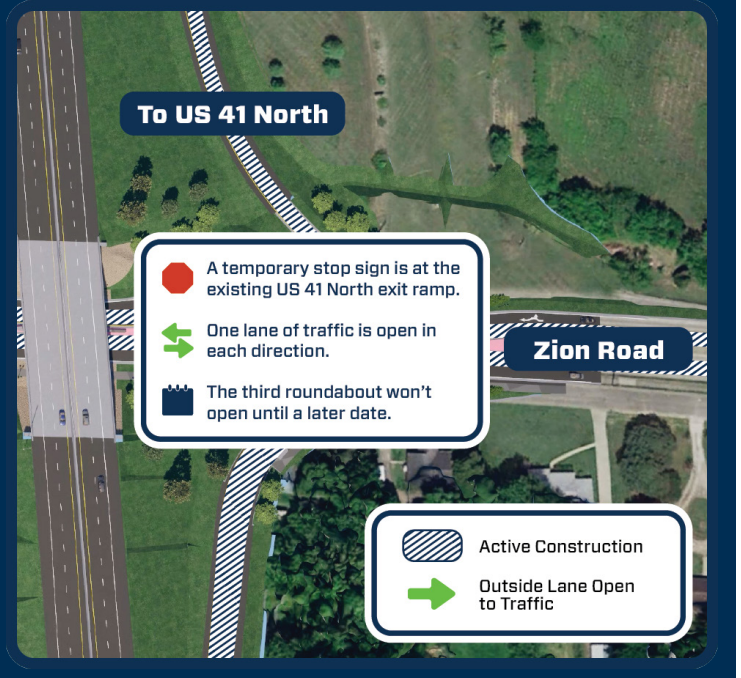

- Two roundabouts will be operational, but they will not be in their final configuration.
- Both will be open to a single lane of traffic with drivers using the outside lane.
- KY 2084 and US 41 South will be accessed using the roundabouts.
- The ramps to and from US 41 will reopen to traffic.
- Temporary signals will no longer be in use.

- The third roundabout will not function as a roundabout until later this year.
- Once the new ramps to and from US 41 North are complete, the final roundabout will be operational.
- Until then, drivers will continue to use the existing on and off ramps to access US 41.

Construction will continue in the area.

Ongoing construction includes; curb and gutter work, truck aprons, Henderson Gateway sign, flag poles, lighting, final surface, and striping.

The temporary configuration will offer people an opportunity to get used to driving the roundabouts. Even in a temporary configuration, opening the roundabouts is expected to improve traffic flow.
